

SUMMARY OF EXAMINER INTERVIEW

Applicants would like to thank the Examiner for the Interview of October 27, 2009. The differences between the DeBusk references and claim 15, as presently amended, were discussed. The Examiner tentatively agreed that the DeBusk references do not accumulate orders when a favorable purchase price for at least one of the clinical related supplies may be derived by aggregating orders and that are non-time sensitive. Proposed amendments to overcome the 101 rejections were also discussed and tentatively agreed upon.
